**UPDATE: Part II Application for Sub Specialty Status,  
Committee On Specialties, RCPS**

On April 27, 2009 the Committee on Specialties of the Royal College of Physicians and Surgeons met and approved the Part II of the Application by the Canadian Academy of Child and Adolescent Psychiatry for subspecialty status for Child and Adolescent Psychiatry. This is a major accomplishment and the most significant component of the Royal College process, even though there are still some additional approval steps before completion. The remaining steps are expected to proceed successfully and conclude by the end of September 2009.
